MILK SHIPPERS WILL ERECT PLANT

Alexandrians Will Then Obtain Pasteurized Milk If Desired

CONTRACT AWARDED

Health Department Has Been Working For Several Months to Secure Such a Plant.

Ques.—"There has been some talk about the possibility of a plant for the pasteurization of milk, being located in Alexandria. Is there any truth in this rumor?

Ans.—It gives me great pleasure to state this rumor is true beyond any question of doubt. Two well known dairymen, who have been milk shippers to Washington for years past, have already purchased the ground, given the contract for the building and ordered the necessary euipment for the plant. This means far more to the people of Alexandria than this simple statement would imply. On account of its importance as a public health measure, I might state that our department has been quietly working for several months past to induce some person to engage in this much needed enterprise. A pasteurizing plant for our milk, is just as necessary as a filteration plant for our water. For those who don't want pasteurized milk, the other kind will be at hand as usual.

Ques.—"How is milk Pasteurized and does it render it free from germs and safer to use than the ordinary milk served to us by our dairyman? What does the terms "pasteurized" signify?"

Ans.—The process of pasteurizing milk is very simple yet effective. It consists of raising the fresh milk to a temperature of 145 degrees F, and maintaining this heat for 30 minutes, then the milk is quickly cooled to 50 degrees F or less and kept cool until delivered to the customer. This process while simple, must be conducted with great care, for if the milk is heated only two or three degrees above the temperature reuired, the uality is injured, and if kept below that temperature, the bacteria are not destroyed.

This process kills all disease pro. milk, such as the bacilli of typhoid fever, diphtheria, tuberculosis, septic sore throat, etc. It is for this reason that pasteurized milk is safe milk for children and invalids. The term "pasteurize" was given the process in honor of its discoveren, Professor Pasteur, the great French scientist who first brought to light the germin of tuberculosis.

Ques. "Do you test the milk brought into our city by the dairymen who deliver it to the stores and private houses, and if so, how do you judge its quality?"

Ans. Yes, we do. Every dairy that sends milk into this city is required by law to obtain a permit from Department of Health, and such permit is granted only after an inspection of the dairy and methods of handling the milk. The general sanitary conditions must meet our regulations. Any person bringing milk into this city without such permit, is liable to arrest and a heavy fine for each day such milk is brought in and sold or offered for sale.

We take weekly samples from the various milkmen, after they enter the city to deliver it to their customers. It is taken to our laboratory in the City Hall and tested for butter fat and bacterial count. We reuire a butter fat content of 3 1-4 per cent. Most cities set their own standards as to bacterial count. Boston, for instance has a standard of 500,000 per cubic centimeter, while New York sets 1,000,000 per c. c. This don't mean that each c. c. contains 1,000,000 disease germs, but simply the ordinary bacteria—mostly harmless—that are normally found in raw milk that is produced and handled under reasonably fair sanitary conditions.

Any raw milk showing over 1,000,000 bacteria per c. c. in summer, can well be considered unsafe for human consumption, because it indicates unsanitary conditions about the dairy or careless handling, hence liable to contain disease producing germs, particularly those that cause the various intestinal disorders of summer time. We keep a careful record of all tests, so if you desire to know the quality of milk your particular milkman is furnishing, call at or phone to the Health Office, City Hall, and we will gladly give you the information.

Ques.—"Does milk contain more disease germs than water if it is produced under bad conditions?"

Ans.—It does. Water transmits only a few diseases, typhoid fever being the principal one. Milk conveys typhoid, tuberculosis, scarlet fever, diphtheria, septic sore throat and the various germs causing dysentery, diarrhea and the summer complaints of children. The dangerous feature of milk is the fact that it is a good culture medium for disease germs. Certain disease germs will live for a time in water, but they will not multiply or grow like they do in milk. It can thus be seen that it is most essential to have clean milk at all times.

RESOLUTIONS OF RESPECT

To the Late Eugene B. Taylor.

The Bar Association of the city at a recent meeting adopted the following resolution of respect to the memory of Eugene B. Taylor.

The death of Eugene B. Taylor left a void in the lives of many in our city, for he had a host of friends to whom his genial sparkling presence was ever a source of pleasure. Every one loved to converse with "Gene" as his intimate friends called him. He loved a joke, and laughed as heartily at one on himself, as on another. He had been many times to Europe and had much to tell, and told it well. He was a great reader of newspapers and kept well posted on current topics. His endless fund of information and his sunny disposition made him a welcome everywhere. No one could have a more charming travelling companion. He knew many cities and with him one needed no guide in London, Paris or Rome.

We may not call him a great lawyer, but he was a good lawyer; patient, thorough and exact.

It has often been said that "every man has his price." Eugene had no price. With him it was only what is right. He knew nothing else. That settled in his own mind, there was no budging, shifting or side stepping. All the wealth of the world could not have made him do what he thought was not right and fair. No short cut would do for him. He always followed the straight path to the right thing. In this his example was wholesome to the fellow members of his profession.

He had for years been afflicted with a fatal disease. He suffered much, but bore it with a Christian spirit. He was a devoted son, a devoted brother, a faithful friend, with whom his memory will ever remain fresh and fragrant, and they will ever mourn his departure.

He lived his life "without fear and without reproach," and of him it may be well said, "Well done thou good and faithful servant, enter thou into thy reward."

WILSON GETS BIG OVATION

12,000 Surge Around President At Sacramento And Force Speech

CROWD BLOCKS TRAIN

Every California Town Pours Out Its People to Greet Executive Yesterday Afternoon.

Sacramento, Cal., Sept. 23.—The league of nations is a guaranty of justice, and without the treaty of peace with Germany, including the covenant, the world "would sink back into that slough of despond which mankind was in before this war began," President Wilson told a crowd of 12,000 persons that surged about his special train when it stopped here for 25 minutes yesterday afternoon.

The league covenant affords the only hope of China for the restoration to her of the sovereignty of Shantung, the president assented. The President said the enthusiastic welcome was more pleasing to him because it showed not only a desire to welcome him personally, but interest in "the great rights I have come out to advocate."

The departure of the train was delayed a short time because the crowd surged across the tracks in front of the train and it was difficult for the police to clear away for the special to pull out.

A large percentage of the crowd were women and children. There was a delegation of Red Cross women, and these presentd the President with a basket of fruit. In it was a card signed "The American Red Cross," which read:

"Disputes between nations should be adjusted by human reason instead of human strength."

PREDICTS QUICK COLLAPSE

Washington, D C., Sept. 23.—Early and complete collapse of the steel strike is expected here, and conservative labor leaders have admitted privately for days that it was a mistake. The Steel Corporation was anxious for a test, convinced that the wave of labor agitation has now reached its crest, and a defeat in the steel industry, following the rout of the radicals at Boston, would finish them up for a while.

The information here is that few of the American operatives of the Steel Corporation wanted to strike and only a limited number have participated. Seventy-five thousand of this class of workers own stock. The radicals are counting heavily on an intensive campaign of Bolshevik agitation among the unskilled foreign elements who, it is said, have struck, not for a camouflage set of demands formulated by the outside organizing committee, but because they have been told that this strike is the beginning of a "revolution" which is to set up an "Industrial Democracy."

Strike of Steel Workers Said to be But Partly Effective

FOREIGNERS ARE OUT

Officials of Steel Corporation Claim That From 10 to 20 Per Cent of Men Quit.

Pittsburgh, Pa., Sept. 23.—Two additional troops of State constabulary are en route to the steel region on a special train from the eastern part of the State, it was learned today.

Sharon, Pa., Sept. 23.—Strike rioting broke out in Sharon again today. Shots were exchanged, and police reported at least eleven men were wounded.

Buffalo, N. Y., Sept. 23.—Rioting, which broke out here during the night in connection with the steel strike, was resumed early today.

Michael F. Murphy, general master mechanic of the Lackawanna Steel Company, was seriously injured in a clash with strikers. Two arrests were made.

During the night three riot calls were answered by police reserves, following street fights between police and strike pickets. Several persons were injured. One man was taken to the hospital with a fractured skull.

One hundred and forty switchmen employed by the South Buffalo railway, an adjunct of the Lackawanna plant, went on strike at 8 o'clock this morning, tying up switching within the company yards.

Pittsburgh, Sept. 23.—After a r of incipient rioting in half a dozen towns in the Pittsburgh district, during which two persons were killed and eleven others suffered gunshot wounds, the situation in the strike areas was reported quiet this morning.

Pittsburgh, Pa. Sept. 23.—Regardless of all claims by interested parties in this home center of the steel industry, the strike was but partly effective, the majority of the plants remaining in operation.

Their forces were reduced by defections estimated at from 15 per cent to 65 per cent.

A very small percentage of the men who quit were native born officials of the U. S. Steel Corporation declared that fully 95 per cent of employes who walked out were foreigners.

They also claimed that not more than from 10 to 20 per cent of their workmen had struck.

Newcastle, Pa., Sept. 23.—Seven persons including two women, were shot in the streets of this city last night during a fight between strikers and their sympathizers on one side and police, deputy sheriffs and mill guards on the other.

The Newcastle clash occurred in front of the Carnegie Steel Company plant at sundown, when the day shift came off and the night shift began to file through the gates.

For half an hour the crowd of 300 men and women surged back and forth while the police and special guards attempted to beat them back.

Revolver shots sounded above the tumult at frequent intervals. A woman seeking her son, who is employed in the plant, dropped bleeding from a bullet wound. Another woman standing in a doorway fell with a bullet in her neck and another in her leg. Stones and bricks came in volleys as the mob struggled until by sheer physical force the guards and police scattered them.

AN OLD-TIME SURPRISE

While the hands of the clock were indicating the approach of lunch time this morning, Charles H. Zimmerman sent from his cafe, 109 North Royal street, to this office a bountiful supply of fried oysters, prepared in his way which appealed to the inmates of the sanctum as well as those in the mechanical department, and it is unnecessary to say they were greatly enjoyed.

Alexandria has passed through many transitions during the past few years, but the city's reputation for fried oysters will be maintained amid the many changes so long as our friend remains in the land of the living.

JUVENILE OUTLAWS

Reference was made yesterday to the case of two boys, each seven years of age, who were brought in to the Police Court on the charge of breaking and entering Washington School Building, on south Washington street, cutting the telephone wire, committing other depredations and gathering together sundry articles for the purpose of carrying the same away. On Wednesday of last week the same urchins entered a residence on south Washington street for the purpose of committing larceny, and were secreted under a bed when found. On the first occasion the boys were turned over to their parents for correction, with the understanding that they were to be kept at home in the future, or until they reached an age of responsibility, and not allowed to roam the streets at will. Four days later, however, they forced an entrance into the school-building. One of the miscreants will be sent to Fauquier county, and the other to a home in Alexandria county.

Juvenile "artful dodgers" are in evidence today as they were in the days of "Oliver Twist." The disposition of charges against small boys is one of the most difficult the Police Court has to handle. The recent laws of the Legislature provide that in the first offense the boy must be given a chance, and the delinquent must be turned over to his parents for correction and his movements watched by the Probation Officer. In the great majority of cases this procedure proves to be a failure, as was the case with the urchins referred to above.

Other cities have similar problems facing them, as bad boys are to be found everywhere.

The grand jury of Prince Georges county, Md., will be asked to return indictments for housebreaking against five Washington boys arrested early yesterday for entering the cigar store of Gus Plumber at Mount Rainier and stealing sundry articles.

In default of $1,600 bonds each, they were committed to the Bladensburg jail.

"FEAR GOD, HONOR THE KING."

The words at the head of this article will be recognized as those of the Apostle Peter. They do not, it seems, appeal to certain elements in the present day, although at times, when it suits the purpose of socialists, they assert that the Founder of the Christian religion stood upon their platform.

Another eminent herald of the cross tells us to "render honor to whom honor is due."

"To hell with kings," said Mayor Daniel Hoan, Socialist, Mayor of Milwaukee yesterday in reply to the request of A. T. Vanscoy, of the chamber of commerce, that a formal invitation to visit Milwaukee be extended to King Albert and Queen Elizabeth on their coming tour of the United States. 'I stand for the man who works," the Mayor said in a signed statement, "While I have much respect for the Belgians, it would be to my everlasting shame, if I should contribute one iota to the cause of kings."

It is supposed that King Albert and Queen Elizabeth will not look seriously upon this gratuitous insult perpetrated by the Mayor of Milwaukee, and that they will not regard a city the majority of which are socialists as an index of the people of the United States of America.

Our country has on various occasions welcomed royal visitors, and although our nation is a republic, we have, and we hope ever will, render honor to whom honor is due.

The Belgian king and queen should be welcomed by the United States especially at this time, after they have passed through the most fearful ordeal of their existence. Two years ago it looked as though Belgium was passed away as, did Carthage of old. But America helped to force the mailed fist from the face of the little kingdom, and its king and queen are now on a visit to the friendly United States. Our better angels teach us to rejoice with them and their people now that the dark Hun shadow has given way to the sun of peace.

STEEL WORKERS' STRIKE

The strike of the steel workers and the definace of the Steel Corporation are being watched with interest by the people of the entire country. The outcome at present is uncertain, as the men and the corporation are equally determined.

There is one significant fact in connection with the present disturbed conditions, and that is that the real backbone of the strikers are foreigners. Officials of the steel corporation state that but few Americans have quit work.

A member of a labor organization at present employed in Alexandria said a day or two ago that most of the overt acts chargeable to the American Federation of Labor were committed by men not native and to the manner born. This class have made themselves conspicuous of late by not only defying the suggestions of the President of the United States but their national leaders also.

The American workmen, especially those whom wives and little ones look to for support, are not enthused by strike talk or strike movements. They breathe much easier when labor disputes are settled decently and in order. Those who own their homes or are paying for the same hear of purposed strikes as they do the midnight cry of "fire!" But the class with all they own upon their backs have but little to lose. Such are generally itinerants, and one place suits them as well as another. They bring on much trouble and then fold their tents and leave for riper fields.

The entire country is hoping that the present strike will be settled speedily. The claims of the men should be entertained, and, if reasonable, should be recognized. But the men should realize that employers have rights that should be respected.

The National Association of Manufacturers says $10,000,000 a day in wages, rent, retail trade and industrial production resources has been lost during the past eight months because of strikes, 90 per cent of which loss could have been avoided if some definite co-operative program had been in effect between capital and labor.

Products that Packers Sell

Their Number Grossly Exaggerated

The Federal Trade Commission has published a list of some 640 articles said to be sold by the packers.

This list is ridiculously padded in order to scare people into the belief that the packers are getting control of the food supply of the nation.

For example, the list includes not only "beef sides" and "beef cuts," but also over 60 other items of beef products and by-products.

Over 90 articles listed are not sold to the outside trade but are raw materials and supplies, such as brick, cement, etc., used by Swift & Company in carrying on its business.

Glaring duplications appear, such as "sardines" and "canned sardines"; "butterine" and "oleomargarine"; "dried sausages" and "dry sausage," etc.

The list includes 37 kinds of sausage; 4 different kinds of preparations of beef tongue, etc., etc.

Simmered down, Swift & Company handles in addition to meats and meat by-products, only butter, eggs, cheese, poultry, canned goods, lard substitutes, and to a very small extent, dried and salt fish. And the proportion which we handle of the total supply of any one of these is absurdly small.

Do you want to be fooled by such misleading and ridiculous statements of the Trade Commission? Do you want radical legislation based on such absurd evidence?

RICHMOND SPECIALIST DEAD

Dr. S. D. Hicks Married Daughter of Late Senator Lane

Richmond, Va., Sept. 23.—The body of Dr. S. Delauncey Hicks, well known local specialist, formerly of Washington, who married Miss Harriet Lane, daughter of the late Senator Harry Lane, of Oregon, was brought here Saturday from Bethel, Conn. for burial. Accompanied by his wife, whom he married in Baltimore shortly before this country went to war with Germany, Dr. Hicks left here recently on a motor trip for Bethel to visit Mrs. Hicks' sister, Mrs. Isaac McBride, formerly Miss Nina Lane. He drove the car himself, overtaxing his heart, which had been giving him trouble for some time. He was stricken soon after his arrival and died in a few hours. Mrs. Hicks' mother and sister accompanied her to Richmond with the body. The burial service will be conducted by the Rev. G. Freeland Peter, of St. James' Episcopal Church, formerly of Washington. The burial will be in Riverview cemetery.

Dr. Hicks was a member of an old Virginia family and was a native of this city. He was about 45 years old.

STRIKE THREATENS

Florida Union Men to Walk Out in Sympathy With the Phosphate Miners

Tampa, Fla., Sept. 23.—A general strike of all trades in Florida is imminent, in sympathy with the strike of phosphate miners, according to R B. Lovett, president of the State Federation of Labor.

It is probable he said Sunday night, that the executive council will take up the matter in Jacksonville in a few days and will call a referendum on the subject. The phosphate mine situation was discussed at a meeting of the Central Trades and Labor Assembly here today, and it was decided to aid the miners in every way possible. The meeting followed an injunction secured by the companies to prevent strikers from picketing.

At the meeting yesterday morning a resolution was also passed condemning an assault made on Editor L. W. Bloom of the Lakeland Star.

A WORD TO THE WISE

Don't put off your fall buying hoping that prices will come down later.

Indication in the cotton and wool lines point to higher prices every day and no relief in sight.

Every "strike" means high prices—therefore starting at the raw material until the finished article is turned out, every class of workers who handle the wools and cotton have been or will be on strike. There is nothing at present to relieve this condition.

Prices must go up. Our advice is buy now. It means dollars in your purse.

WOULD CLEAR GERMANY

Huns Say Austrian "Red Book," Just Out, Shifts War Blame

Berlin, Sept. 23.—German newspapers are arguing that the Red Book just issued by the Austrian government proves Germany tried earnestly to prevent the outbreak of the great war in 1914 and that Count Leopold von Berchtold, Austrian foreign minister in 1914, bears the bulk of the responsibility by his "underhand tactics and deception."

The belief that Germany can demand a revision of the peace terms on the strength of the Red Book is expressed by the Boersen Zeitung, which intimates that the publication of the Red Book was planned to bring about such a demand. The Kreuz Zeitung denounces what it calls the "inextinguishable guilt of Austrian diplomacy," while several other newspapers praise the courage and honesty that brought about the revelations in the Red Book. The Tageblatt says Germany was required to keep silence about facts at the Peace Conference so as not to hinder Austria's chances for a better peace.

Almost the only newspaper to criticize the German government is the Tageblatt, which says the government in 1914 "did not show the slightest interest in the situation and acted idiotically," adding that "Germans in power at that time, played the part of thoroughgoing fools." The newspaper declares the revelations of the Red Book is an "awful disgrace for Germany."

"The governmental incapacity of the Hohenzollerns for the last 30 years was our guilt, for which we now must pay," the newspaper concludes.

While no official statement has as yet been obtainable in connection with the publication of the Red Book, Foreign Office attaches, who have been willing to discuss the disclosures, have ventured the opinions that "probably the most surprised men who read them will be Dr. Theobald von Bethmann-Hollweg, former German Imperial Chancellor, and Gottlieb von Jagow, former Minister of Foreign Affairs, and possibly Viscount Grey, who in 1914 was British Secretary of State for Foreign Aairs."

Wilhelmstrasse believes, however, that the revelations will not minimize the guilt of Russia, while, on the other hand, they may clear up points relative to the German attitude during the critical days of July 1914, especially her position on Viscount Grey's proposal to submit the Russo-Austrian dispute to arbitration.

It is declared at the Foreign Office that the evidence proves the German Government not only transmitted Viscount Grey's suggestion to Vienna, but was "insistent in urging its acceptance," It is held to be proved that Count Berchtold, apparently on purpose, delayed his answer to Berlin, sending it by courier, who reached here after mobilization had been ordered.

In the meantime Dr. von Bethmann-Hollweg had been obliged to put off Sir William Edward Goschen, the British Ambassador, informing him that no answer had been received from the Austrian Foreign Office. It is declared that the Austrian Red Book "disposes of the legend of the Crown Council at Potsdam," at which a decision was reached to begin hostilities.

EPIDEMIC IN PETROGRAD

Cholera And Dysentery Playing Havoc With Citizens

Washington, Sept. 23.—Swedish press report from Petrograd by way of Helsingfors say deaths at Petrograd from cholera and dysentery have risen to 200 to 300 a day. Sanitary conditions are reported intolrable and many of the hospitals have closed for scarcity of food and medicine.

A band of Bolshevik robbers for the third time in a short period have sacked the Russian State Bank, taking more than 2,000,000 rubles in cash and many valuables.

According to another report from Helsingfors' Admiral Nolchak's headquarters have been moved from Omsk to Novo Nikolajevsk.

EX-KAISER'S FIELD KITCHEN.

William's Cooking Arrangements Now En Route to America

Washington, Sept. 23.—To the collection of war trophies which the Smithsonian Institute is now gathering will be added shortly the field kitchen of William Hohenzollern, late Kaiser of Germany.

German prisoners of war this week loaded the kitchen—which is said to be a most elaborate affair of the kind—aboard a transport at St. Nazaire, France, and it is on its way to Washington with a large collection of war material of different kinds.

The kitchen followed the Kaiser all over Europe while the war was on—to all of the fighting fronts which he visited—but shows no signs of damage, which is taken to indicate that it kept as far to the rear as did its imperial owner.

POURS BEER INTO RUN

Teacher Sits on Guard With Shot Gun Until Sister Succeeds in Locating Several Helpers

Lynchburg, Va. Sept. 23.—When Miss Mattie W. Haden, a Campbell County school teacher, had reason to believe that "moonshine" liquor was being made in the vicinity of her home, she didn't report it to the state or national government, but set about to locate it she poured 400 gallons of "beer" into a stream.

Rather, Miss Haden discovered the "beer" when it was just ready for a run, which would have turned out forty gallons of corn liquor, and then, while she kept watch with a loaded shot gun, waited for her sisters to go for several men who had strength sufficient to spill the mash. Miss Haden ordered the men to pour the mash into Failing' River, and this they did. The operators of the still did not appear on the scene during the "raid."

DODSON KILLING USE OF CALOMEL

Says Drug is Mercury and Acts Like Dynamite on Your Liver

Dodson is making a hard fight against calomel in the South. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason, Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or ccause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor an dambition.

A RESOLUTION proposing amendment to section 117 of article 8 of the Constitution of Virginia, and providing for publishing said amendment and certifying the same to the next general assembly.

Resolved by the senate and the house of delegates (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed and referred to the general assembly to be chosen at the next general election of senators and members of the house of delegates, for its concurrence, in conformity to the provisions of section one hundred and ninety-six of article fifteen of said Constitution, namely:

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population, but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request, made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

Sec. 117. But each of the cities and towns of the State having at the time of the adoption of this Constitution a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly: provided, that every such charter is hereby amended to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

(b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

(e) Any form of organization and government authorized by any provision of this section which may have been adopted heretofore by any city or town pursuant to any act of the general assembly enacted before such provision became effective, and which is now in operation, is hereby declared legal and valid ab initio, and shall have the same force and effect as if it had been authorized by this Constitution at the time of its adoption.

A RESOLUTION proposing amendment to section 133 of article 9 of the Constitution of Virginia.

Resolved by the house of delegates, the senate concurring (the majority of the members elected to each house agreeing thereto), That the following amendment to section one hundred and thirty-three, article nine, of the Constitution of Virginia, be and is hereby, proposed and referred to the general assembly at the first regular session held after the next general election of members of the house of delegates for its concurrence in conformity with the provisions of section one hundred and ninety-six, of article fifteen of said Constitution, namely:

A RESOLUTION proposing an amendment to section 136 of article 9 of the Constitution of Virginia, and providing for publishing said amendment and certifying the same to the next session of the general assembly.

Resolved by the house of delegates, the senate concurring (a majority of the members elected to each house agreeing), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed, and referred to the general assembly to be chosen at the next general election of members of the house of delegates, for its concurrence, in conformity with the provisions of section one hundred and ninety-six, of article fifteen, of the said Constitution, namely:

The boards of supervisors of the several counties, and the councils of the several cities, and towns if the same be separate school districts, shall provide for the levy and collection of such local school taxes.

And insert in lieu thereof the following:

Section 136. Charles F. Heider, 19, of 445 New York avenue northwest, Washington, was drowned Sunday afternoon in the Severn River, seven miles off Annapolis, when he fell overboard from a motor launch in which he and an uncle, Albert Monday, of Baltimore, had been fishing. The accident occurred when Heider was attempting to recover a lost oar.

The drowned youth had been a clerk in the auditor and disburser's office of the Southern Railway.

HISSED BY GALLERIES

Senate Guards Try to Eject Perpetrators—Public May be Barred

Washington, Sept. 23.—At the end of a four hour attack on the league of nations by Senator Reed, of Missouri, a Democrat, who has refused to stand with his party for unreserved ratification of the peace treaty, of which the league covenant is a part, the Senate galleries late yesterday started a demonstration that had to wear itself out, and then hissed violent disapproval when the cheering was condemned from the floor.

There has been no outburst like it since the treaty fight was put before the Senate by the Foreign Relations Committee. But there were indications soon after Senator Reed began his speech that the crowds, swarming for admittance at all doors, were in sympathy with his argument. Mindful of the evidences of feeling in the galleries, Senator Cummins, president pro tem, gave warning that while applause might be tolerated, despite Senate rules, at the end of the address, it would not be permitted at other times. Threats to clear the galleries if repeated had no effect and no attempt was made to enforce the long standing rule.

When Senator Reed, with arms lifted high, closed his speech and sat down the applause broke, followed instantly by lusty cheering from every gallery. Men in uniform joined in the demonstration and many women stood, waved their arms wildly and shouted with the men.

Walter Conroy was taken to St. Peter's Hospital, but was dead when the ambulance arrived.

Martin, the chauffeur, has not been seen since the crash. He resided on Green street, Philadelphia. The party had been to New York to visit relatives of the Conroys and were returning.

HATRED FOR YEARS

London, Sept. 23.—"Belgian hatred of the Germans must continue for years. I do not doubt that commercial relations will be resumed; that is natural, but you can imagine that the hate will live for a long time," said King Albert of the Belgians.

"The worst thing the Boches did after violating our neutrality was to shoot six hundred civilians. Then there was wanton destruction of factories and the deportation of civilians, which took the Germans back to the pre-mediaeval times. These things will never be forgotten and forgiven.

THEATRES

GRAND THEATRE

Dulcie didn't recognize ethics in winning a sweetheart. She believed all was fair in love, etc., and when a hostile aunt and a beautiful stage favorite stood between her and the youth she secretly loved, she just went in to win him.

How she succeeded, this gentle Southern girl in the hostile atmosphere of the home of a Northern uncle estarnged from her father since the Civil War, is told in "Miss Dulcie From Dixie," the Vitagraph picture which will be seen at the Grand Theatre tonight.

Gladys Leslie, star with the "million dollar smile," has a most effective role as Dukie and is supported by four well known Vitagraph favorites—Charles Kent, Arthur Donaldson, James Morrison and Julia Swayne Gordon. The story is from the novel of the same name by Lulah Ragsdale and the feature was directed by Joseph Gleason. Also Eddie Polo in "The Wild Rider."

INGOMAR THEATRE

The spirit of student life, the excitement, rivalry and fun of the campus, are to be found in good measure, in "The Girl Dodger" the latest Paramount picture starring Charles Ray which will be shown at the Ingomar Theatre tonight. This photoplay is a Thomas H. Ince production.

Mr. Ray is said to have one of the most pleasing and yet unusual roles of his career in this production. He is cast for the part of a dreamy bookworm of a student who blossoms forth finally in a most surprsing manner in order to help out a livelier fellow student. The mixup that ensues when a girl who is engaged to the other student is mistaken for a chorus enamorata of that young gentleman, may be imagined.

RICHMOND THEATRE

Pauline Frederick's latest Goldwyn picture, "The Peace of Roaring River," at the Richmond tonight, presents the star in a role where no feminine aids to beauty add to the sympathy which her tribulations arouse. The exquisite gowns which Miss Freedrick wears with such perfection of grace that they seem part of her, are absent. The beautiful, stately carriage of the woman who knows only the finest and softest sides of life, no where intrude to soften the realities of "The Peace of Roaring River."

Only her superb ability as an actress carries her through one of the most difficult roles she has ever essayed.

"Gets-It" Peels Your Corns Right Off

Two Drops Will Do It Without Fuss or Trouble. Never Fails.

There's only one way to get rid of a corn, and that is to peel it off as you would a banana skin. There is only one corn remover in all the world that does it that way, and that

There's No Corn "Gets-It" Will Not 'Get.' is "Gets-It." It is because of this fact that "Gets-It" is today the biggest seller among corn-removers on this planet. It means the end of "corn-fiddling." For hard corns, soft corns, very old corns, young corns, corns between the toes and callouses, it means a quick, certain finish. "Gets-It" is applied in 2 or 3 seconds. All you need is 2 or 3 drops. As easy to do as signing your name. It does away forever with tape, plasters, bandages, knives, corn-diggers, scissors, files and blood-bringing razors. Ease your corn-pains, be corn-free at last.

"Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. M'f'd by E. Lawrence & Co., Chicago, Ill.

You Can Almost Surely Avoid That Dread Disease by Taking Chasco-Vin, a Most Palatable Body-Building Tonic

The terrible harvest reaped by the "flu" a year ago will last long in our memory. No one would have it repeated at any cost hence all should take every precaution in time.

During the last epidemic thousands were safeguarded by taking Chasco-Vin, a body building tonic that does build.

It is the toning up of the system that counts in keeping the "Flu" away.

Those who are weak, nervous and run-down specially need Chasco-Vin.

In conjunction with Chasco-Vin we advise using a good antiseptic solution for the throat and nose and also that the bowels be kept regular.

Chasco-Vin is sold by Edgar Warfield, jr., King and Pitt Streets.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervisicn of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
